Self-discipline and self-confidence. It refer to learn behavior that need to monitor and control in a conceptual way with high self-discipline. Two crucial traits that are key indicators of future success not only in terms of school grades, but also in terms of positive school-related behaviors and the avoidance of problem behaviors like substance use. Here are some tips to follow:

• Let them grow in an environment full of love and respect for children for surely grow for what they lived
• Explain the reason for every rule. It helps them to understand the reason behind your rules
• Have a brain break to help the child overcome impatience after the recess time or during transition. It will them to break up the routinely activity.
• Praising your student for his/her performance regardless of efforts. In praising your pupils’ effort, they made to do classroom chores without hesitations.
• Reward method for good behavior, simple token for their good deeds
• Be the best role model, remember children will imitate what adults will show them for they believe it is right.
• Help them to find the right path through God’s words. They will surely grow as a better person. of the Lord is the beginning of wisdom.

It is not too late to find the remedy for this common problem of our school, home and community only if we will help each other to attain this goal, through the help of teacher, parents, Fear and guardian in giving alternatives and solutions on how to teach them will be a great help to mold the youth of a new generation.
