A GREAT LEAP IN EDUCATION

by:
Gleceria C. Mateo, Ed.D
School Principal I, Magsaysay National High School

We are all witnesses to a big change that happened in the field of education and that is the emergence of K-12 program.

In order to further uplift the quality of education, the new curriculum was embraced in the Philippines, in making the students well equipped, well skilled and more knowledgeable in their respective areas of specialization.

Going out from the traditional 10-year basic education, k-12 program directs mandatory kindergarten and twelve years of basic education which became the great leap of the Department of Education (Deped) in improving the quality education in the Philippines.

K to 12 Curriculum aims to establish a strong foundation for the young learners through kindergarten, followed by elementary and junior high school. As highlight of the basic education system, the senior high school will focus on the different specializations of the learners catering the diverse abilities, talents, and potentialities of Filipino students.

Indeed, the Department of Education’s K-12 Program is one concrete response to the needs of the Filipino learners for it is kind of education that will transform the students to be globally competitive.

K to 12 Program assures that learners acquire the relevant knowledge and skills that are essential in becoming productive members of the Philippines society. Thus, each learner’s best ability, personality and career may be intensified.
This recent educational reform not only aims to improve the quality of instructions but also advocates college education, promotes business and endorses work. The great leap due to K to 12 program promises economic growth not only for individuals but also for the whole country as well.

The 21\textsuperscript{st} century learners that we have now may lead a right track and may enjoy the fruits of quality educational system is adhering to the standards set by global communities. The acquisition of varied skills is now witness that the multiple intelligences of the school children but also, we develop and sharpen their skills in various fields of specializations.

When we may K to 12 we do not only mean quality of instructions but we also pertain to the quality of life. The great step of the Department of Education (Deped) may promise a better tomorrow to our educational clientele.

Kudos! K to 12 Program is considered as a great leap in education. With this kind of curriculum, the level of the Filipino students is escalated and the soon graduates of this program will be elevated.

Truly, K to 12 Program is the rise a better future.
