ADOBE FLASH CS5 CLASSIC TWEEN

by:
RUSTY M. PALACAY MIT, MIE, MOS

In this Adobe Flash Tutorial, we will be going to create classic tween.

1.) Open the ADOBE FLASH PROFESSIONAL CS5 then select Action Script 3.0

2.) Parts of the Adobe Flash Professional CS5 we will be going to use.
3.) Choose the “Text Tool” on the Toolbar. We will be going to create a fire truck.

4.) Change the (1) “TLF text” to “Classic text”. Then (2) change the font to “Webdings” and (3) adjust the font size.

5.) Click on the Stage then press letter “f”.
   A firetruck should appear on the screen.

6.) As the object on the stage is selected
   (1) Click “Selection Tool” then (2) click “Modify” in the Menu bar + “Convert to Symbol” or press “F8” on the keyboard.

7.) A window like in the picture will appear.

8.) Your drawing will be converted to symbol.

9.) The font now or the object is not editable.

10.) Click on the 50th frame in the Timeline, or wherever you want in the frame based on how long will be the length of your animation.
11.) After choosing the frame you want (for example is the 50th frame). On your Menu Bar, click “Insert” then “Timeline” and lastly “Keyframe” or simply press “F6” on the keyboard.

12.) The object will be selected and your frames will merge like what you see on the figure immediately below.

13.) (1) Click the “Selection Tool” or simply press “V” on the keyboard, then drag down your drawing just like in the figure below.
14.) On your toolbox, click the “Free Transform Tool” or press “Q” on the keyboard.

15.) The object will have guide points.

16.) Press + hold “Shift” on the keyboard then click + hold one corner guide point of the drawing then resize it.

17.) (1) Click one frame on the merge frames in the Timeline. Then (2) on the Menu bar, click “Insert” > “Classic Tween”.

18.) You will see that the merge frames will have an arrow from frame 1 to the last frame. This shows that you’ve created an animation. Then last, press “Ctrl. + Enter” on the keyboard to run your project.
