Teacher I, Bonifacio Camacho National High School

Classes start soon. In facing this new normal situation, everybody needs to adjust. Not only the students but the teachers as well. But how can it be possible?

As the opening of classes approaches, Bonifacio Camacho National High School (BCNHS) makes sure that no children will be left behind on this set up. Producing modules, accepting number of students who enrolled keeps on growing as all of them get curious for what will be happening as the opening of classes starts. Not only that, teachers and administrators abetted each other to accept donations from parents with regards to Brigada Eskwela and sacrificed themselves to go to school despite the pandemic that we are facing right now.

Amidst this kind of situation, everybody must have an open mind and heart in accepting new challenges in this what we call “new normal” because all of us are affected. And since Bonifacio Camacho NHS is led by competitive administrators and staff and with the guidance of Almighty God, we can proudly say that WE ARE READY.

According to Secretary Leonor M. Briones, secretary of Department of Education, classes will start on October 5, 2020 in all public schools. This will be the date that the President Rodrigo Duterte has chosen. Classes will end on June 16, 2021 and this consists of 200 school days.
