CHALLENGE ACCEPTED

by:

Jeric C. Lopez
Teacher III, SDO Orion Annex

A person does not grow when things are easy, he grows when he faces challenges. A life that is plain sailing is not engaging. People tend to live life to the fullest and giving their best in all the things they plan to do. Teaching is probably one of the most promising job in our country. They struggle a lot, every day in their lives. Even if the situation requires the hardest, they will definitely offer their best shot just to showcase their passion and to fulfil their calling as the one source of learning.

As a living proof of this, there are specialized teachers of Alternative Learning System (ALS) who conducted intensive community-based training for illiterate Out-of-School Youth (OSY), Out-of-School-Children (OSC) and Out-of-School Adult (OSA) who are willing to learn basic literacy skills. They usually cast around for the lost students who are eager to acquire knowledge and skill that will help them to chase after their dreams and be a fruitful citizen of the Philippines.

Thus, to pursue the Education for All (EFA) among the Filipinos, Mobile Teachers of ALS promptly accepted the challenge in reaching the last, the lost, and the least citizen of the country, helping them to step out of their comfort zones, educating them and most especially aiming to meet the learning needs of all children, youth and adults in the present time. The educational system in the Philippines will assuredly benefit with these goals.
The duties and responsibilities of ALS Mobile Teachers are exemplary. They exert their extra time and effort to reach learners in far-flung areas. To cater not only their academic needs but also to aid what is essential to be an efficient citizen of the country and to get through the diversity of learners including the Indigenous People who demand greater learnings.

Serving the underserved and reaching the unreachable as we get through a lot of struggles in one community. Catering not most, but all of their needs. Fulfilling them and making them feel that they are loved.

ALS Mobile Teachers of Bataan, challenge accepted!
