CONSIDERING EDUCATIONAL CHALLENGES

by:
Sylvia D. Gatus
Teacher III, Orani National High School

The school as the center of learning is indeed facing several challenges. These challenges are productive. This means that the educational leaders and educators have to consider the essentials need in the school.

Refining Student Monitoring and Evaluation. It is a big challenge for the school to monitor the progress of every student. Also, appropriate evaluation of the student’s learning is necessary.

Increasing Managerial Capacity. The school manager and key persons need to increase they resiliency in facing school challenges. They should also be flexible in adjusting to the recent changes in the educational system.

Mounting an Inclusive Education System. The school also has to consider all kinds of learners. Everyone has the right to education regardless of gender, age, physical condition and among others.

Enhancing the Number of Well-Trained Teachers. The school must give priority to the professional growth of teachers through proper seminars and trainings. It is through these activities that they are trained in order to be more effective in teaching.

Including Information and Communication Technology (ICT). It is the trend nowadays that computers are being used in the school office and in the classroom. The school needs to employ the usage and benefits of technology.
Integrating Technical and Vocational Education  Aside from ICT, the technical and vocational education should find a space in the school. Tech-Voc education is useful in developing worthwhile skills within the students.

Instilling Science and Technology. It is very important the school should give more focus on science and technology. This subject area is a core study which adds to the academic achievement of each student.

Revitalizing School Health and Nutrition. It is essential for the school to revitalize school health and nutrition among students. Healthy and well-fed learners are indeed productive.

Improving School and Classroom Environment. The existence of a well-improved school is advantageous. Having conducive and safe classroom is beneficial.

Schools have many challenges and they should be faced right away by the school authorities for them to attain a better school for the learners.
