EDUCATION IS IMPORTANT TO AN INDIVIDUAL

by:
Gina W. David
Teacher III, Tucop Elementary School

We all know that education is a long term process that nobody can steal from you. It is a kind of wealth that can achieved by an individual. It is very important because when one person is educated his lifestyle is very different from the others particular those that did not earn any units from their academic performances. Individual who participated and enrolled in school has more opportunities to get a job which give them satisfaction. Education is very essential aspect of the work of society and it will raise the common good issues and enhance knowledge and understanding of the communities. One of the most important tasks of education is to enable people to understand themselves. Education is also important because quality education improves the student’s skills, abilities, potentials and creativeness. The knowledge increases and the total development of one’s personality is also increases.

Education should be valued and appreciated because it can never be taken away from you or by anyone. It means to an end and it can delineate poverty and enhances a purposeful life for the next generation. It gives and promotes enlightenment. A quality education will nurture the learner and will help them more about themselves. Unfortunately we have places in the country, where not everyone has an opportunity to receive this formal type of education. Because the main purpose of education is to educate each individual within the society, to
prepare them and qualify them in economy as well as to integrate people into society and
teach them good values and morals of the world. Because through education we can create a
world in which life is very light, easy and productive. The way of living is very successful and
purposeful. Educated people is a man with a right thinker and a correct decision-maker.
