Studying in these time of pandemic is a lot harder than normal. It is difficult sharing knowledge to students whom you don’t even met face to face. What even harder is that some can’t afford to have that gadget that is needed for studies.

Students that can afford to buy gadgets are fortunate enough to continue studies despite the pandemic. But what about others? Those that can’t afford to buy one? Are they being deprived of education because they have no gadget to be used for study? These days were technology place a vital role in every aspect of our lives, also plays a major role in education. Nowadays, being online is a must. Online meetings, online forums, online gatherings, everything online, and of course Education. How can a student cope up when he has no means to catch up?

Online or Modular form of study, gadget is still a must. It is not a luxury these days, but a necessity. This tool helps student nowadays to learn. Everything is online, so make sure that no one is left behind.
