IMPACT OF K TO 12 CURRICULUM

by:
Jelly P. Reyes
Teacher III, Orani South Elementary School

The kind of education that we have today is in line with the global standard and international norm. Since its implementation, this curriculum has enormously brought great impact to the country particularly to the school administrators, teachers, students and parents.

The K to 12 Program has significantly changed the educational system into a more productive and progressive organization which may eventually yield better breed of individuals. Its great effect on the delivery of education in the Philippines may be more dynamic and impactful.

On the part of the school administrators, they are more responsible and innovative for K to 12 Programs requires an ideal school leading to world standards. The school administrators have already set their respective goals in order to consistently and efficiently comply with the K to 12 Curriculum.

The teachers are demanded to be more creative in order to produce interactive classroom discussions and learning experiences. They keep themselves abreast with the latest trends in education and equip themselves with competency skills to be imparted to their educational clientele.
The students who are expected to be globally competitive are now being endowed with relevant skills and useful knowledge to utilize in dealing with the future world challenges in college life, in work and business. Because of K to 12 Program, our students may be comparable with the students in other progressive countries in the world.

The parents are impressed on the kind of learning and benefits that the students may attain through K to 12 Education. Though at first they thought that the stay in school was prolonged to another two years but they consequently saw the great advantage...that it is for the benefit and welfare of the Filipino students.

K to 12 Program is indeed influential and the benefits are for the best gain of the Filipino learners! We can now compete in the global market and the time for us to shine in the world.

Thus, K to 12 Program is being implemented in order to prepare our students to college, to work and to business.
