Education is the key to success and the only reason why a man could exist on earth is to become successful and knowledgeable in certain subject because of education. Most of us know that the only wealth that we could give to our children is education, particularly to those who belong to the poor family. So far, many Filipinos believed that the most important thing to be educated is to study hard in order to achieve your goals in life. Because learning by experience and by doing could also be a great help to educate our children. They can realize that when they study hard, learn and finish a degree or course, later find a job and ready for employment then next is a success in the field they choose. We can say that education is valuable in life and most of us depend on education, because it provides us with knowledge about the world. It paves the way for better careers and opportunities. It helps build character, values and attitudes. It leads to enlightenment of our whole lives. It lays and depends the foundation of a stronger nation. It gives us the knowledge, skills and develops in us a perspective of looking at life. It helps us form opinions and develops a point of view and became the reason for being a successful and knowledgeable individual. The information we are constantly looking at with, cannot be converted into knowledge without the catalyst called education. Education makes us capable of interpreting things right and applying the gathered information in real life scenarios. Education is not limited to lessons from text book or printed materials. Real education is obtained from lessons taught by life and through experience learn. Another importance of education is to equip us and to provide us the expertise that is needed in helping us realize our career goal and objectives in life. Expertise is an in-depth knowledge and attitude toward a specific subject and taught to open door to be brilliant career or opportunities. Education fetches better prospect of
career growth and develop a better skills and knowledge. Good education is eligibility criterion for employment and career status in any sector and part of the industry. Be it any field, education always proves to be motivating and rewarding. We are weighted in the market on the basis of our educational skills and on how we can apply them.
