IMPORTANCE OF EDUCATION IN OUR LIFE

By:
Mrs. Michelle B. Villapando
Teacher III - Bayview Elementary School

Education is very important in life. Everyone who wants to achieve their goal in life, they study hard and no matter what situation they have, they continue to achieve their goal.

Education enhances our knowledge and skills. There is a saying that “Exercise is to the Body and Education is for the Mind. A person who wants to grow and develop their knowledge should go to schooling so that they enhance and gain their knowledge in school. Not only this, but reading book and other materials that makes them knowledgeable in other aspects.

Education is our basic needs to compete globally to other countries. Without education, ignorance makes the people becomes nothing in this world. As a teacher, we are the one who molds the young minds of our learners. See to it that all learners achieve their education through us. Education is vital in every nation, that’s why some countries were progressive because of education they have in their country.
