Most Essential Learning Competencies – MELC is the answer to the problem brought by COVID-19 pandemic in our country. At present, our country the Philippines was devastated by pandemic and is suffering from education crises. MELC has been issued for the school, guiding the teacher and pupils for better accomplishment of the curriculum.

This Most Essential Learning Competencies is very necessary for determining and implementing learning delivery approach that are suited to the local context and diversity of pupil’s intelligence. Schools are hereby instructed to refer to the MELC in creating self-learning modules, activity sheets, and other instructional materials based on the intelligence quotient of every pupil so that they will not feel the heavy loads and burdens in studying. The teacher and pupil’s relationship must engrave to the varied activities in accordance with this MELC. This is because, it is part of the department’s response to develop a resilient education system. The competencies are cognitive skills, problem solving and creativity which are very essential for pupils’ education and achievements.

Moreover, it will enhance the capacity and the ability of every learner. They will acquire the skills and knowledge necessary for the achievements of their goals and objectives in life. It has been used for the framework to help the learners to study hard so that they will become more productive and successful in their own special way.

Thus, MELC is very important for learning continuity to achieve quality education.
