IMPROVING CLASSROOMS AS BEST LEARNING ENVIRONMENT

by:
Albert T. Gatbonton
Teacher I, Hermosa National High School

Schools can often be the center of learning where the child is developed and nurtured. Improving your classroom to be the best learning environment which is conducive to learning is the utmost task that a teacher can do aside from allowing students the space and time to interact within the teaching and learning process creating and maintaining a stimulating learning environments can be achieved through effective classroom organization, interactive and classroom displays.

1. Best learning environment is one with high challenge and low stress. Allow the students to freely express themselves.

2. Ritualized and patterned positive teacher behavior influence performance. The approach of teacher which is very lively and compassionate one help them feel their important.

3. Constant and varied exposure to new materials encourages quicker and deeper learning, introduce to students varied form of strategies and materials, and help them explore more.

4. Differentiated structures are necessary for the effective individualized learning. We organized and see to it that every student was given emphasis.

5. Constant and varied exposure to a new material encourages a quicker and deeper learning.

6. Music can be used to improve recall as well as create the chosen learning environment. Incorporate a range of teaching strategies within planning.
7. Ensure resources appropriate, accessible, identifiable and relevant to children’s learning needs.

8. Environment showed support students to become independent and active learners.

9. Adopt a collaborative approach when planning for children’s needs.

10. Good visual display can improve recall and attention up to 80%.

With these, an educator may transform his classroom into a best learning environment. We also have to take into account that equal opportunities form an integral part of the formal and informal curriculum.
