K-12 CURRICULUM ON ITS FIRST

by:

Maria Dolores M. Ocampo
Master Teacher I Luakan National High School

K-12 Curriculum as per advised by the Department of Education went into full operation this SY 2016-2017. Amidst so many queries and those who oppose the idea of its operation. K-12 has finally launched Senior High School into full blast as planned.

Nevertheless, teachers, students, and even stakeholders are uncertain about the outcome of the program. There are lots of worries and questions about the program. They are worried about how prepared teachers are regarding the program. Are they equipped and knowledgeable about the learning to be taught? Did they undergo intensive training/seminars that could help them become effective, efficient and creative? Are the learning materials available? Are there sufficient funds available for the program? And so many queries and doubts that arose with the new curriculum. Teachers adopt new process and technique of K-12 Curriculum, in an ability to provide learning to students in the most effective way.

So what must be the objectives of K-12 Curriculum?

At first, is to prepare seniors for a better future after they finished their studies in K-12 Curriculum. This will enable them to work at once with their chosen field with mastery and with self-esteem.

Second, for those who will pursue studies in college, this program, will also provide assurance of preparedness to their chosen field of study. So it’s not a waste of time either.
Lastly, this enable our students to adopt innovative learning for global competitiveness. Filipinos usually excel in the different field of learnings. They are naturally born witty and flexible.

So, it is easy for the students to adopt the new curriculum like K-12 Curriculum.

For two consecutive years of this program it will be significantly useful among the students. Pursuing in college or not, it does not matter. Each student will gain a lot from this program.
