The fully implemented K to 12 Curriculum has a lot of promising features that will eventually improve and heighten the quality of education in our country. It entails a lot of notable elements which cater the needs of the Filipino millennials in order to be comparable to their foreign counterparts in terms of knowledge and abilities.

Initially, K to 12 Programs serves all kinds of learners from all ages, from the mainstream to the out-of-school youth and even adults. It aims to educate everyone regardless of age, gender and group. It promises an equal opportunity to all.

The program is designed for spiral learning wherein one’s progression starts from simple basic to multifarious tasks. This makes it easy for the learner to survive since the readiness is established before another difficult activity is given.

K to 12 Program unleashes the potentials of the students teaching them the most appropriate skills fitted on their respective ages and interests. It develops the person’s ability and leads to their growth and progress. The curriculum promises to expose the individual to productive discovery of one’s ability and to direct him or her in its proper utilization. Thus, the student’s improvement will be evident.

The curriculum allows one to choose a line of specialization. Since a variety tracks and strands are being offered in the eventual Senior High School the student may prefer the course wherein his or her inclination is connected. The K to 12 Curriculum promises a freedom from the choice of one’s undertaking.

K to 12 is the preparation for further education in order to have a career pathway. Since basic education is being provided by the Department of Education, this is the doorway to a college degree and further education. The K to 12 Program makes the person abreast and well-equipped with all the essential knowledge and skills to face the challenges of higher education.
The current curriculum also invites future jobs and eradicates unemployment. They say that once you are a K to 12 graduate better jobs will be achieved someday. The promise of having a bright future will come very soon because of this curriculum. Since you will be adept with the latest trends in the field of education, being globally competitive may be realized.

A part of the curriculum is the chance for entrepreneurship. This connotes business and K to 12 Program promises future business to our students. As a young member of the society, you are envisioning to have your own enterprise someday and this could be possible through K to 12.

A lot of great promises are given and these are inspiring in the pursuit of excellence under the new curriculum.
