LEADING TO ENGLISH PROFICIENCY

by:
Nestle I. Reyes
Teacher III, Bepz Elementary School

As part of the curriculum, English proficiency is vital in the education of the kids. Learning English is modest with the work of the following ways:

Watch English movies. It is nice to advise our kids to watch sensible English movies. From these moving pictures and sounds of the words of the characters, kids will familiarize and easily understand the thought while watching and hearing people using the language.

Express your views in English. Oftentimes, a pupil spend his time in verbal expression. It would be a great implementation if the learner is describing, telling, arguing and narrating using the English language.

Read vocabulary books. The richness in vocabulary may be a great reinforcement in attaining English proficiency. Not just reading but also reading various words with comprehension is the complete package to become a proficient reader in English Language.

Converse in English. A learner should practice to normally converse in English. Making oneself in the use of the language can be a great technique. Through communicating with someone who is good in the language you will be able apply your own skill in speaking English as the medium.

Have a usual practice. Practice makes practices perfect. The typical use of speaking English would help in the development of English proficiency. Thus, skillful in English language makes someone competent.
Write compositions in English. Writing compositions in English would be contributory in the English proficiency attainment. Communicating oneself in composing is another good means to acquire English proficiency.

Enjoy speaking in English. It is much better to enjoy the things you do. Within the case of communicating English, a learner may discover willingness and contentment once he or she continuously speak using the language.

Having the given recommendations are important in achieving English proficiency.
