MEMORY GAMES FOR BRAINY STUDENTS

by:
Char Mae G. Sadsad

In modern era, students are influenced by science and technology with extensive use of electronic gadgets. They gauge to install online games in their mobile phones to stimulate their minds from the bombarded load of academic work. Based on their opinion, it serves as their stress relief against stress and anxiety in study habits through online mode.

Memory Games are highly-prescribed for students’ educational nourishment. They can probably develop their skills on playing board games that are somehow associated in campus intramural and sports competition. Besides, it is a gateway of opportunity among amateur individuals to gain momentous experience in extra-curricular activities implemented by Department of Education and Department of Education, Culture and Sports agencies. They may undergo try-outs and constant practices through online game application. It also generates logical and strategic skills in dealing memory games.

Thus, teachers serve as sports coach in representing their beloved school. They have to equip trainings and workshops to prepare students with full gears in the game competition. They may advise them about powerful tips on general instructions and sports recommendation in defeating the opponent players. On the other hand, they have to encourage their student-representative that game is not always championship but rather it might be a form of sportsmanship.

Young generation are persuaded to build strong bonds with their family and neighbours through playing board games. It expresses friendly competition between two
parties as they grow expert with battle of eloquence. It delves to modify both strengths and weakness through win-lose round of play attempts.

Basic Rules and great potentials can be polished as the contestant have consistent drills as preliminary action gearing towards paramount of success. Let there be tournament guaranteed for the aspirants in shaping their sports image in academic society. Medals and certificates will serve as fruit of their labor from ample time consumed for discovering gift of talents. Let the mentors be the powerful outlet in engaging with school competitions and manifold of opportunities coming along career pathways.

Normally, it is good to have recreational activities during leisure times. Games are part of mind entertainment that gives lesson depending upon its genre. People may allot short break to connect with people and cherish memories together in amiable way. Besides, it also brings enjoyment through playing with thrills and trials each game rounds. It will be a great advantage for recharging life energy away from computer exposure in online class as you shutdown electronic gadgets and mingle with conversational setup.

In conclusion, Memory games have boons and banes in human lifestyle. Make sure that play time is source of refreshment in stressful living. Do not let games manipulate human brain into game addiction. Board games are somehow obsolete style of sport but it can give spotlight to people with clever minds. People must acknowledge the sports smart in beholding Philippine flag across the globe through competing with human race. Game Engagement Strategies is indeed invitation for learner’s niche of opportunities across the globe.
