MULTI-SKILLS COACHES FOR BUDDING STUDENT-ATHLETES

by:

Ruther M. Baclig
Teacher III, Mariveles National High School-Poblacion

The teacher-coaches play a dynamic role in the development of budding student-athletes in the school. Since they are experts in the field of sports, it is a great chance to unravel the contributions they could give to the budding student-athletes.

The multi-skills coaches are very eager to be the agents of change among the students in the school. They will use their power and abilities to transform these students into promising and even the best players in the future.

The skills that these coaches may provide will open the doors of opportunities to the players since these will be applied in various sports events which will make the players shine and achieve glory.

These multi-skills coaches may direct the student-players to take the proper direction. Whether in campus and off campus activities for sure they will survive because of the accurate instructions by these coaches.

The multi-skills coaches will help the schools scout and discover the potential athletes who will aspire for various winning sport stints in the future. Since they have the eyes for the prospective winners, they will be able to help the school find the best players.

The multi-skills coaches would lift the spirit of the students in order to reach their dreams in sports. The experiences they can share are worthy enough to influence their minds and hearts of the student-players in reaching the pinnacle of success in sports arena.

The multi-skills coaches carry with them the wisdom that the budding sports enthusiasts can apply in their journey as players in their respective events.

These multi-skills coaches are found in our schools. Our head teachers and teachers in MAPEH have the overflowing talents in coaching. They know a lot of things involving sports.

Their multifarious skills are for the students to avail.
The students have to meet them in the school premises in order for them to grow as players.
