PATIENCE

By:
Delson C. Perez
Teacher Applicant

P
atience is a trait every teacher should possess. Now a days discipline is one of the hardest roles of every teacher. In every situation that happens inside the classroom, teacher's patience is tested and measured. He should have a lot of patience to teach and manage his class.

A
daptation to different classroom situations will also determine and test teacher's patience. Students’ behavior, moods and even attitudes may vary. Some may be attentive, while others, troublemakers. Others are not disruptive, only because they may be busy doing something while sitting inside the classroom.

T
ime to time teachers find interventions to encourage and motivate their students to perform well in different subject areas. Different learning strategies may have to be applied and employed, depending on the students in each class. Interesting activities that capture their interest should be also used and provided.

I
n this modern age, most of the teachers have forgotten to be patient and get irritated very quickly over minor things inside the class. In fact, they sometimes do wrong decisions and actions that bring them in a hard situation or even trouble.
Enlighten the mind and heart of the students through life experiences help teachers to manage their class efficiently and effectively. The students should be given time and opportunity to express and share their life experiences whether good or bad. This opportunity will also enhance their confidence and also feel they are belong in class.

Nourishing their mind also with virtues and values that help them to realize the importance of good conducts and manners not only in school but also in the community. No one should be left behind. Everyone needs to be improved and developed.

Care, love and understanding are things that teachers with lots of patience mostly give to the students. Patience makes people better. It leads people to do proper and right things and actions in life.

End the class with positive vibes. Never let negative things arise. Always bring lots of patience to handle and manage the class effectively and efficiently. Always put in mind that patience is a virtue.
