READING TECHNIQUES FOR INCREASING LEARNING AND KNOWLEDGE

by:
Jessebel Ceriño
Teacher II – Casupanan Elementary School

Reading is a process of communication that enables a person to convert writing into meaning. It allows the student to translate a written text into a significant language with independence, comprehension, and fluency, and to interact with the message.

Reading is a substantial way that can change human life importantly. It can amuse us; entertain us and enhance us with knowledge and experiences recited. There some reading techniques, which if learn thoroughly at a growing stage can help us, be finer and great distance more comprehensive readers. These skills might not vitally be learned as hard theories or rules but if interpret well once they can definitely enhance the reading skills and increase the quality and quantity of output that we get from after reading.

As generated from https://iedunote.com, reading techniques or styles are the following:

1. Reading Technique-Scanning

Looking through the text is a reading way that is used for getting some specific points by looking at the whole text. For emphasizing the key points of a book the readers can skim through the summary or the introduction or the starting and end chapters of that book.

2. Reading Technique-Skimming

This reading technique is used for acquiring the essence of the whole text lead. We wholly use this technique at the time of reading a magazine or newspaper. This way, we
read rapidly to get the most important points and skip over the detail. It is helpful in getting a research of a passage before reading it in detail or fortify understandings of a passage after reading it in particular.

3. Energetic Reading Style

Energetic reading wants to get a deep understanding of the text. Under this technique, the reader actively comprehends with the text while reading it.

4. Detailed Reading

This style is getting information precisely from the whole text. In this technique, we read every word for interpreting the meaning of the text.

Through this careful reading, we can take-off the text first for getting a main idea and then go back to read in detail. We may use a dictionary to find the meaning of every unknown and unfamiliar word.

Reading is the fundamental foundation on which academic skills of individuals are built. As we know the greatest importance of reading, it is given the top priority in primary education. Many believe that reading is a genuine measure of a person’s success in academics. Majority of the subjects taught to us are formed on an easy concept understand, analyze, understand, read, and acquire information.

Reading materials such as newspapers, books, journals, magazines etc. are the most reasonable source of entertainment and learning. Reading is the inexpensive method of getting knowledge and thus enhancing the lifestyles. Parents feel satisfied when they see their children are reading books. By developing the reading skills, the readers can expand their field of knowledge that enables them with the probability to participate in fruitful discussion and decision-making process. It not only enriches our vocabulary but also teaches us the great way of expressing ourselves.
