RECOGNIZING TEACHER’S GREAT EFFORTS

by:
Russell C. Galang
Teacher III, Orani National High School –Main

A teacher is one of the busiest persons in the society at present. A teacher is filled with teaching responsibilities and related works. In return we should give high regard, appreciation and recognition for his/her outstanding deeds and noble services to the country.

Realistically, the quality of teaching instructions must be credited to teachers for they are the ones who manifest instructions in the classroom. The painstaking efforts of teachers are priceless and they should be recognized and well-praised.

The academic achievements of the learners are made better through the undying efforts of teachers. The teachers are doing heroism in their own ways by continuously honing the abilities, talents and skills of their student-apprentices. They keep on boosting their self-esteem and cultivating their minds for additional learning.

School performances may rely on the combined efforts of teachers and school managers. The School-Based Management adherence of the school may be made more possible and well-accomplished through teachers’ involvement and cooperation. Aside from the academic contribution, the teachers are reliable in accomplishing very important documents about the school.

It is also a living fact that the behind the success of the students in various contests are the teachers. The relentless guidance, training and support of teacher-coaches are truly admirable. They see to it that the students are well-equipped, well-trained and knowledge most especially in facing challenges outside the school.
Even the improvement of a student’s character and personality is made possible by teachers. A teacher also plays the role of a guidance counselor and as a molder of one’s character and personality. Through the teacher’s effort and performance quality, students are developed.

Teachers motivate the students to learn more and to attain a lot of achievements. They are the inspirations and models of the students in reaching the pinnacle of success.

It is just right to appreciate the altruism and heroism that teachers manifest. Because of this reality, they deserve to be recognized and honored for what they are doing is not for their own sake but for the benefit of the Filipino learners.

The teachers truly live up to the thought that country first and they show this through continuously serving the Filipino youth.
