Have you ever questioned yourself why pandemic happens? Have you notice the changes from the time that Covid-19 started? Well, when you think about some reasons on how this pandemic exists, you can visualize that it has a purpose not just on you but in entire world as well.

Self-Discipline. As we go everywhere outside our home, we learn how to comply with the guidelines in the street and in transacting to those establishments opened. We also learn how to maintain our body hygiene for safety purposes. Well that’s a part of the guidelines.

Technology Familiarized. Try to think on a situation that you are in a field working or studying having your companion and try to think that you are using technology in home with just yourself. Does it have more advantage in you, doesn’t it? You will be more familiarized with the features when you explore it by yourself.

Faithfulness in the Creator. He gave us a challenge that can be solved. He gave us a thousand reasons to step forward and think positive. He gave us a daily chance to reflect ourselves. And he gave us a thing that others can’t take from you, your faith, passion and love towards him.

As the days goes by, you will just think about his purpose and that is giving us an instrument to strengthen ourselves and to prepare ourselves so that when we go back in his heart, we will be as one.
