TEACHER WAYS TO PROMOTE CHANGES IN NEW NORMAL

by:
Albert T. Gatbonton
Teacher III, Hermosa National High School

Looking down from this new normal situation. Teachers must saw their student, and in great concern that no one would care for them. Teachers must be considerate of their students. Teachers need to do what they must intended to do, it is to inspire, encourage, and educate learners. Teachers must spend time to love their students. Teachers must also instruct their students in the way they should live and taught them the truth about God’s Word so they could reach others. We all could admit that we do not love others as much as Christ did. And sometimes it takes a pandemic to make us love others. Christ does not want us to wait until we hurt to realize the importance of loving others. We are to love others as much as Christ loved us. He gave his life for us!

According to Luke 18:1, And he spake a parable unto them to this end, that men ought always to pray, and not to faint. Teachers can promote social change through instilling the benefits of prayer to every student. The great privileges that God gave us is prayer. Yet sadly, many times we become weary in our prayers. We bring a request before God for a length of time, and not seeing God’s answer right away, we become discouraged and give up. God does not want us to lose heart in our prayer lives but has promised to be our advocate as we are faithful to continually seek Him in prayer. When we pray, we come before God with a pure heart and lay our request at His feet, trusting Him to take care of them. To our petitions, God has three answers: yes, no, or wait. Sometimes what we are asking is in the will of God; sometimes it is not right yet.

“Prayers is a way to have a private time with God”, Teachers must push and motivate students to pray because only God can help them. Many times, when we want nothing more than to spend time alone, interruptions arise that demand our immediate attention.
It is often a struggle to simply spend five minutes with God during hectic day! Yet, it is this time alone with Him that will help us get through our day. It is through this time that we are renewed and strengthened on our lives.

Do you ever have difficulty finding time to spend with Christ? Do not let the things of this world take the private time with God. Because to really change the world, we must help people change the way they see things by means of prayer and be considerate of others.
