In the midst of the never ending tasks in the teaching profession, teachers should remain to smile. This facial expression is expected from every teacher in the daily interaction with their students.

The teacher’s smile is very powerful. The smile could attract students to come to class regularly and listen attentively to the teacher. The smile can persuade the students to study and learn.

The smile coming from a teacher is very inspiring. The students are encouraged to be at their best all the time. They are well-motivated to accomplish their tasks in the school and to give their best effort in everything they do.

Every teacher’s smile produces good vibes. The whole class becomes happy and at ease in learning. The students feel the good atmosphere in their studies and feel gladness in their hearts.

The teacher’s smile shows love to the students. One way to show your care and love to your students is to smile at them from the heart. The sincerity is felt through the sweetness of the teacher’s smile.
It makes the students think that they are welcome in the school. The students see the accommodation of the teacher if they are welcomed with a smile. The thought of being accepted is shown in the teacher’s face.

It manifests good mood to have a child-friendly environment. The teacher who is always smiling may contribute to a child-friendly environment. The students would feel that they are in a child-friendly school.

It is also an assurance of kindness. At the real sense smile emits kind attitude and kind behavior. It is showing gentleness, compassion, sympathy and kindheartedness through a smile.

Smile has a big active effect for those who see it. It has a convincing and inviting influence to be more comfortable and satisfied in the school.

Hence, smile is the teacher’s influential tool to win the hearts and respect of the students. It is a simple facial expression that is very charming and very magnetizing. Teachers should continue on smiling.
