Bantan Elementary School

“Education must continue even in times of crisis whether it may be a calamity, disaster, emergency, quarantine, or even war.” (Leonor Magtolis Briones).

Technology dominates its degree of importance during this time of Pandemic times in delivering education to all pupils in the community. The effective delivery of teaching and learning process is made possible through the advent of utilizing social media for fast delivery of information. It also serves as avenue for open communication that will provide teachers and pupils exchange of ideas for clear perspective for a meaningful learning experience. Department of Education continues to innovate on what are the things that they could provide to all learners across the country in different flat form in order to deliver quality education for all.

DepEd Commons was launch in order to provide substantial learning materials available in online access for every pupils developmentally appropriate in their learning capabilities. It was made interactive to motivate pupils to explore and learn the different lessons provided for them for utilization. They have primarily considered the individual difference of every pupils with various personalities. The pupils could have easy access any time and place they would prefer to learn productively. Learning have made even better for the benefit of every learners preference. Parents could also assist their children in the different learning activities that they could practice that educational sites.

Despite of the situation that we are facing at this time there’s still opportunity for every learner to meaningfully develop their knowledge and skills necessary for them as preparation for life’s challenges. Learners made even competent in the field of work that
they would expose to after Even if the time would permit every learners to uplift the quality of living in the future that is made easy and possible through the help of technology.
