THE CHALLENGES AND SUCCESS IN EDUCATION IN THE NEW NORMAL

by:
Maricel P. Dela Cruz
Master Teacher I, Hermosa Elementary School - Annex

Education shapes the totality of an individual. It is best gained through formal educational setting. Thus, teacher-learner-learning situation comprises the educational process specifically with face to face classes especially in primary grades which is the foundation of learning.

But, due to the onset of COVID-19 Pandemic in 2020, a lot of changes in the educational system occurred in a snap of time. The Coronavirus frightened all the people round the globe. And the whole world nearly stop from moving. But, as time passed by, everybody got awakened that they need to be resilient or else, being stucked in fear and hopelessness.

Resiliency is the most meaningful, most famous and most used word in this time of pandemic. Flexibility follows resiliency. Even in education, resiliency and flexibility play vital roles. In order to continue education, the department found the most possible ways as quickly it could to respond to rapidly changing environment.

This school year 2020-2021 is so far the most difficult yet challenging one. And yes! Education has survived and made possible despite the hardships, doubts and fear. And we are heading to another school year.

The DEped has overcome the challenging issues of Learning Delivery Mode. Even all are new in the new normal; the school setting, instructional materials, and the teaching-learning process, the department has responded to the educational needs at present. The Learning Continuity Plan (LCP) and the Learning Delivery Mode Course (LDM) lead the Philippine Education in the new normal. We owe it all to the initiative of
the superiors from the central office down to school personnel, the collaboration and spirit of resiliency lead us to success and made the school year 2020-2021 lighter, if not at all easier to learning delivery. The webinars greatly aided the teachers to move forward and stand for the sake of school children.

Yes! Indeed school year 2020-2021 is a success and the future is now being clearer no matter what Pandemic will come.
