THE CONCEPT OF SCHOOL BASED MANAGEMENT

by:

Vilma S. Gonzales
Principal I, Pantalan Luma Elementary School

School-Based management or SBM is the institutional expression of decentralization of education as the grassroots level, elementary and secondary.

In performing this task, decision making will be held responsible the authority from central, regional and division levels down to individual school sites, with the intent of writing school heads, teachers, students as well as parents, the local government units and the community at large, in promotion of effective schools.

The main goal of SBM is to improve school performance and students achievement. In part, it also aims to empower the school heads to lead their teacher and students through reforms which lead higher learning outcomes, to strengthen partnership with communities as well as local government units, to integrate school management and instructional reform to the school effective.

In this entire process, the school head takes the lead.

Taking a glimpse at this program, more added responsibilities were given to the principals.
