K to 12 Curriculum Program is a new educational system of learning which has been started last 2016. Our other contender countries already promoted and implemented the paradigm of the curriculum. Actually, we are the last country who implemented and the curriculum of K to 12. Almost all of the civilized countries in the world used this kind of curriculum. Its mission and vision are to fully develop our thinking skills, eradicate illiteracy, promote patriotism and nationalism, to teach our learners to be a good citizen of our country, produce globally competitive students and most of all to prepared our youth in the field of work and enhance their middle level skills. Moreover, it’s very easy to apply for a job because of K to 12. Aside from the professional enhancement program that it offers, students will also receive vocational certificates and diploma. They are full blast in the nature of their field because of their OJT or work immersion. The additional two years in high school brought a lot of issues and concern. But on the latter part, the students, parents, community and other stakeholders already grasp and realize it prospective goals.

If we think of it, it is a big help for us Filipinos because we can fully compete with other countries. It is a big advantage for us. Hence, Education is very important for us. This is our blue print or guide to achieve our dreams in life. As we all know this is the only legacy that we can inherit to our parents. It can uplift our way of living, can change our lives and it can help us to become successful in life.

As a student, I also have struggles but I’m able to cope with those difficulties. I know that it will cost a lot of money to be able to finish my studies. I will treasure forever
my educational attainment. I will make sure that I will apply what I’ve learned. I will choose the right academic track that suited to my skills, interest and abilities. I will do my very best to finish my studies, so that my parents will be proud of me.
