THE NEED FOR K TO 12 PROGRAM

by:
Joyce Marie Dy Jongco Santos
Teacher-Applicant

The Filipino learners are very fortunate that our educational managers and educators were able to introduce K to 12 Program in the Philippines. It is pleasant to know the reasons on the adoption of K to 12 in our educational system.

K to 12 Program is recognized in the international community. Since the curriculum is spiral in structure, the international community approves on it for majority of the countries in the world today have the same educational curriculum.

It provides ample instructional time. The 12 years that the learners should spend in school may lead to sufficient preparation in order to learn the essential knowledge and skills that are required in college, in work and in business.

It produces more skilled labor force. The practical trainings in the immersion activities develop yields more skilled people. The students may learn more useful skills that are more applicable in work for life. It certainly produces more competent and more employable graduates.

It is recognized in abroad or in offshore. The K to 12 graduates are be well-accepted to occupy jobs abroad for they already learned the essential knowledge and skills that the work requires. Indeed, the Filipinos may be more appreciated in the international arena of work someday.

It follows international standards. The zeal of excellence and quality is indeed a part of the K to 12 Program. The graduates of K to 12 Program have better quality in terms of
knowledge and skills. That is why majority of the countries worldwide are offering the K to 12 Program.

It yields graduates that are more competitive. Because the graduates may learn a lot through the 12-year education, these individuals would become more competitive and are ready for more challenges in life and in work. The kind of education that they may receive in this program is comparable to that in the progressive countries in the world.

It incorporates different learning areas. Several subject matters are taught in K to 12 Programs. It exposes the learners to different learning areas for them to be equipped fully. These learning areas provide sufficient learning in order to complement the needs of the students to better education.

The Philippine society needs K to 12 Program in order to improve the quality of instructions and to produce quality people. The innovation that this curriculum provides is truly worthwhile.
