Classroom management is very important thing to consider by the teacher. It should be effective and executed properly so that it will benefit not only you as a teacher but all the learners. When the classroom management is effectively implemented it will lessen the problems in discipline among learners and it will avoid interruptions and disruptions. There are no secrets to an effective classroom management. It will be achieved through your daily teaching experiences.

According to Melissa Kelly, these additional tips will help a teacher in achieving an effective classroom management.

1. Begin each class period with a positive attitude and high expectations

2. Come to class prepared with lessons for the day.

3. Work on making transitions between parts of lessons.

4. Watch your learners as they come into class.

5. Have a posted discipline that you follow consistently for effective classroom management.

6. Meet disruptions that arise in your class with right measures.

7. Try to use humor to diffuse situations before things get out of hand.

8. If a learner becomes verbally confrontational with you, remain calm and remove them from the situation as quickly as possible.
9. If a learner becomes physical, remember the safety of the other learners is paramount.

10. Keep an anecdotal record of major issues that arise in your class.

11. Let it go at the end of the day.
