WHAT DOES A TEACHER DO?

By:
Delson C. Perez
Teacher Applicant

In school, students tend to interact with many people who can affect their lives either positively or negatively. There is a person who truly cares about the condition of the students in school and that is a teacher. A teacher plays a vital role. He should possess good qualities and traits. He should also well equipped to manage and handle his class. Not only academic enrichment that the teachers develop among her students. A great teacher must connect with their pupils because the best teachers are committed to their students’ well-being both inside and outside the classroom. Inside the classrooms students' attitude, moods, and even behavior may vary. How teacher can handle this kind of set up? Well, besides reading, writing and giving out tons of numerous tests and activities, teacher is also responsible for creating the future leaders of tomorrow. He also teaches his students the values that they should practice and apply not only in school but also in the community. In our modern times, one may find advancement difficult without a formal education. People should be educated for them to survive and adapt with today's trends. In addition, education will be achieved and attained through the effort and guidance of the teacher.

All in all teacher tries his best to provide an education, guidance and discipline no matter how hard or difficult the situation is. The life of a student is entirely dependent on a teacher because most of their time is spent in school rather than with parents at home. Truly, that teacher gives big impact, influence in the life of the students. This impact involves not only the teaching of academic skills, but as importantly, promote the development of student self-esteem. Strengthening self-esteem in the classroom is associated with increased motivation and learning. He sometimes serves inspiration and motivation in the eyes of others. He touches the life forever.
