WHAT MAKES YOU PROUD AS A TEACHER?

by
Maribel G. Esteron
Teacher III, Balon Elementary School

The teacher plays an important role in the teaching-learning process. In his shoulders lay the responsibilities of a knowledge transmitter, psychologist, guidance counselor and a surrogate parent in the school to develop the pupils to become competitive, successful in the near future and a better citizen of the country. It is not an easy task to be a teacher because teaching is the profession of messengers and prophets. Aside from being knowledgeable; a teacher should have lots of patience, perseverance, and positivity in order to have pupils’ better achievement.

It’s overwhelming for a teacher to see his pupils turned into fully developed well-being. Remember him and his knowledge forever and see his pupil’s progress in life. Being a teacher is a unique work that may change the world. That’s what makes you proud as a teacher. BE PROUD, you touch and change the lives of your pupils and what you do each day matters more than you know.

Be PROUD to call yourself “Teacher.”
