Friends and colleagues lend me your ears, in the service of the Filipino people worldwide. Publicity is not the only reason to embarrass the person. If you want to haze her because of her unusual behaviour try to call her attention using call a friend, ask the audience like family reunion, dinner date, and movie marathon. There a lot of disciplinary measures or remedies to prevent the chaos and some bullying incident. Prevention is better than cure. Always remember that we need to consider into consider the confidentiality of the issue. The only solution for this particular matter is through counselling, test and replacement; therapeutic stage. Psychologist should render seminars, symposium, panel discussion, outreach programs and community services. As long as you have the authority, relationship/ connection, you are entitled to respect the person no matter what happened; bisexual or transgender. The personal data or information of the school of other public and private offices always emphasize that particular platform, for security and privacy purposes. The important documents are protected by copyrights law ---PLAGIARISM. In some Industrial Companies, you are not allowed to disseminate the profile of the employer and the employee, most especially the agenda or the minutes of the meeting. This is a sample protocol or proper decorum for each and every one of us this is called as Data Privacy Code.

As teachers, we should not discriminate them inside the class and in other extra school activities likewise we can use poster making, slogan and essay contest to cater Gender Equality. On the other hand, Educators and other professionals or experts, should motivate their followers or disciples to establish clubs/ organizations and Team Buildings that enunciate Gender Sensitivity. What are the possible factors for this particular issue? First and foremost, know your rights. Even though you have the
personal contact to the students; face to face or not, as long as they use social media to humiliate, you have the rights to file a case against his or her because that is a criminal case. This is a public scandal because they violate our Constitutional Rights. Henceforth, Mental Awareness programs are provided or guided by the following Medical specialist/Practitioners like psychologist, psychiatrist, clinical nurse and neurologist Society. Since they are liberated countries, people let them enjoy their rights. In other countries, they accept LGBTQ community. They are feeling free to communicate with one another. They can be united as one through civil weddings. They consider boyish and gays because they are also humans. We need to appreciate the beauty of nature and mankind. To surpass those obstacles or trials in life, we should think positive. Being optimistic can boost our self-confidence or self-esteem. Yes, it’s hard to move on and built up again another relationship to other persons because they think that you are insane or psychotic. Above all, it will lead to suicidal because of traumatic depression, anxiety, and stress. Think twice before you decide. To whom you entrust your seclusions? Try to seek advice to others. Use alternative solutions to solve your problem. "No worries, No STRESS! Choosing the right person is the best thing to do. See to it that she or he can keep your secrets. Always remember laughter is the best medicine. We cannot please everybody. Just let it be and live life to the fullest.
